

LEAF

# The New Generation LEAF. For Next Generation Drivers.

Nissan LEAF is brimming with new possibilities to offer you multiple driving experiences with just one car.

Whether you're a city dweller, a business commuter or a progressive 100% electric fan in search of a more thrilling ride, get ready for a more confident, connected, exhilarating journey in the simply amazing Nissan LEAF.

# Zero Emission. 100% Exhilaration.

With a range up to 275km and a Quick Charging Mode that will get you from 20% to 80% battery capacity in only an hour, LEAF is optimized to keep you moving sooner, for longer.

There are also innovative built-in tools designed to help stretch your range and your battery life. Plus, driving a LEAF means the enjoyment starts the moment you press the accelerator, with the instant, smooth, full torque acceleration you only get from an 100% electric vehicle. There's never been a better time to electrify your drive.

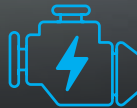

40kWh Lithium Ion 350V, 192 Cells

275KM Range

Quick Charge 20% to 80% in 60 Minutes  
Full Home Charge (240V) in 7½ Hours

EM57 Electric Motor  
AC Synchronous  
Single Speed Direct Drive Transmission

Zero CO<sub>2</sub> Emission

\*RANGE FIGURES ARE OBTAINED FROM LABORATORY TESTING IN ACCORDANCE WITH EU LEGISLATION AND ARE INTENDED FOR COMPARISON BETWEEN THE DIFFERENT TYPES OF VEHICLES. THE INFORMATION DOES NOT REFER TO A PARTICULAR INDIVIDUAL VEHICLE AND DOES NOT CONSTITUTE PART OF THE OFFER. THE FIGURES MAY NOT REFLECT REAL DRIVING RESULTS. OPTIONAL EQUIPMENT, MAINTENANCE, DRIVING BEHAVIOR AND NON-TECHNICAL FACTORS LIKE WEATHER CONDITIONS MAY AFFECT THE OFFICIAL RESULTS. FIGURES WERE DETERMINED UNDER THE NEW WORLDWIDE HARMONIZED LIGHT VEHICLES TEST PROCEDURE (WLTP) TEST CYCLE.

#### ■ LESS IS MORE

With the Nissan e-Pedal you can accelerate, decelerate or brake, using a single pedal. It's simply amazing.

#### ■ THRILLING PERFORMANCE

Revel in the thrill of instant acceleration unlike anything you have experienced, before. Smooth, surprising and instant.

#### ■ COMMUTE CONFIDENTLY

With a host of Nissan Intelligent Mobility features, enjoy a more confident drive with technology that will intervene if need be, to keep you and your loved ones safe.

#### ■ SENSE MORE, SEE MORE

Stay a step ahead with a 360° Around View Monitor, Moving Object Detection, Forward Emergency Braking and Driver Alert Assist. LEAF is a car that's connected to your environment and always looking out for you.

#### ■ SMART-LIFE COMPATIBLE

With touch screen Infotainment, seamlessly integrate your life with Apple CarPlay® and Android Auto™ and take your world along with you for the ride.

## Sustainability That's Completely Connected

It's a new driving sensation that's silently powerful, but switched on in every way; a whole new way to move that elicits emotion and pushes all the right buttons. After all, there's a reason the Nissan LEAF has become an all-electric favorite with a half a million drivers worldwide.

## The Perfect Urban Companion

Take on the concrete jungle and move in complete silence, with instant torque on demand from a direct drive transmission that doesn't need to shift gears. Navigating traffic and congestion is a breeze with 100% electric torque available 100% of the time, delivering on an effortless driving experience, no matter where your journey takes you.

**LED Headlamps.** Light up the way with LED Day Time Running Lamps and Auto Levelizer Headlights with added Auto Hazard function.

**Nissan e-Pedal.** Speed up, slow down and brake in the LEAF, using nothing more than the single accelerator pedal. You can even hold your car on a hill without touching the pedals.

**One Touch Driving.** Push Button Start / Stop and e-Parking Brake are standard, so is Voice Control from the Multi Function Steering Wheel, for inspired urban driving with minimal fuss.

## Efficient By Design

The floor-mounted battery pack creates a low centre of gravity for a smoother ride and handling, helping the Nissan LEAF corner with minimal body roll. Wind Diffusing Side Mirrors and a Continuous Flat Body Floor ensure minimal drag and maximum aerodynamics.

## Park Like A Pro, Everytime

Nissan Intelligent Mobility is designed to make you feel more connected, more confident and more in control. It gives you the awareness of the road ahead, your immediate surroundings when parking and can even offer a helping hand when you need it most; before you even know it. Nissan Intelligent Mobility minimizes driving stress and makes the most of every journey.

### **Around View Monitor (AVM)**

As you manoeuvre at slow speeds, four cameras provide a virtual 360° view from above, for complete clarity on everything in your immediate vicinity.

### **Moving Object Detection (MOD)**

Technology that alerts you when an unexpected car, person or object moves into your path when you're reversing out.

6 AIRBAGS

TILT AND TELESCOPIC  
STEERING WHEEL

DISTINCTIVE  
DASH

IMPRESSIVE  
LEGROOM

UNIQUE BLUE  
ACCENTS

HEATED  
SEATS

## Comfort In The Sound of Silence

Experience a quiet, modern interior appointed with premium finishes, which include heated leather seats and USB charging ports for the driver and rear passengers.

## The Right Technology At The Right Time

The Nissan LEAF is packed with versatile driver assistance technology that steps in when you need it most. With an entire suite of Nissan Intelligent Mobility features to back you up and help keep you out of harms way, the Nissan LEAF turns your commute into a confident and assured driving experience.

### Forward Emergency Braking (FEB)

Your second pair of eyes, watching for danger ahead. The system can detect vehicles in front of you that suddenly decelerate and then gives you an early warning to slow down.

### Driver Alert Assist (DAA)

Lets you know when it's time to take a break. By constantly monitoring your steering patterns, the system detects when you might be getting tired on the road and alerts you with a chime and a coffee cup icon on your display.

### Vehicle Sound For Pedestrian (VOP)

Alerts people on the outside of your approaching car. Customer safety is paramount, not only for those behind the wheel, but those surrounding the car as well.

### Hill Start Assist (HSA)

Whether at a junction, a roundabout or pulling out from the kerb, Hill Start Assist automatically holds your Nissan when stationary on an incline, leaving you to focus safely on the driving situation at hand.

### Trace Control

The system can automatically apply braking to each individual wheel, helping to keep the vehicle safely on the cornering line, as steered.

### Electronic Brake Distribution (EBD)

In an instant, varies the amount of braking force being applied to each wheel for optimum safety and control under harsher braking conditions.

# Styled To Look Electrifying

With sharp, aerodynamic lines and a distinctive floating roof, the Nissan LEAF looks as advanced as the technology under the skin.

17" Alloy Wheels

V-Motion Grille

Floating 8" Infotainment Screen

## Designed For Every Day Practical Convenience

It may look compact on the outside, but trust Nissan LEAF's large loading capacity to handle shopping, luggage and life with ease. The rear cargo floor is lowered for easier access, rear seats split 60:40 and Isofix comes standard.

## Charging Your Nissan LEAF Couldn't Be Easier

Simply plug it into a regular wall socket for overnight charging. If you're in a hurry and need a top up, use the Quick Charge function that's approved for indoor or outdoor use. Safe, smart and convenient, you have options to keep your Nissan LEAF charged up and always ready to go.

Full Home Charge (240V)  
in 7½ Hours

Quick Charge from 20%  
to 80% in 60 Minutes

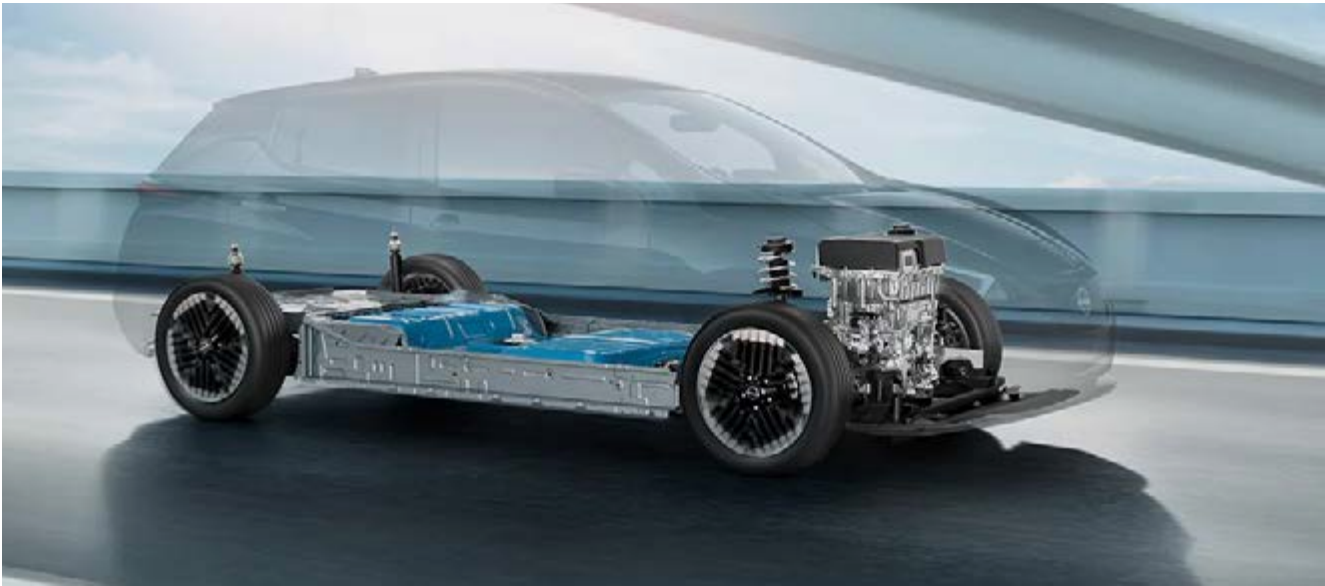

# Plug Into Freedom

Driving electric has numerous unexpected benefits. Without a petrol engine, you're free from relying on fossil fuel and with fewer moving parts suffering from wear and tear, with a lower cost of maintenance as well.

## A Better, Electrified World

At Nissan, we believe in a sustainable tomorrow and we're convinced that it will only happen if we act now. That's why we're leading the work on electric mobility solutions to shape smart cities and create a better future, today.

A 100% electric motor means no more check-ups and maintenance and more time on the road. Save time and money by charging your battery instead of filling up your tank.

Forget about having to stop at the petrol station on the way to your destination. Charge overnight and wake up ready for wherever your journey may take you.

No petrol engine means no more oil or oil changes. No more transmission, spark plugs, radiator, belts or other expensive parts which add to the continuous cost of ownership.

LEAF's battery pack has been developed to meet and exceed the highest industry standards. The technology has been rigorously tested and has an extraordinary record of safety and reliability.

**At Nissan we keep our promises and take care of our family**  
Servicing and repairing your Nissan at an authorised Nissan dealership is the way to go. Our Nissan technicians are highly trained specialists that know your Nissan better than anyone. They will use Genuine Nissan Parts, Genuine Nissan Accessories to ensure quality, reliability and to keep your vehicle performing to optimum standards. Nissan aims to keep you and your vehicle on the road with total peace of mind - for as long as possible. That is the Nissan Aftersales commitment.

**Nissan's commitment to the environment**  
Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.

**Nissan's commitment to quality:** To provide all customers with a consistently high level of quality, Nissan applies the same standards worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements: First, the expectation of a smooth driving experience with complete peace of mind. Second, the intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. Third, the level of attentiveness and service during the sales process, and long after the sale is concluded.
